

A Bill to Develop Free Electric Vehicle Charging Infrastructure

Article I: The United States Federal Government (USFG) shall develop and implement electric vehicle (EV) charging infrastructure nationwide.

Article II: a) EV charging infrastructure shall be defined as the structures, machinery, and equipment needed to support an electric vehicle, which includes battery charging stations, rapid charging stations, and battery exchange stations.

b) The EV charging infrastructure will be free of cost to the public.

Article III: The United States Department of Energy shall oversee the implementation of this bill. Congress shall work with local state legislators to determine appropriate locations for EV charging stations.

Article IV: This bill shall be implemented on January 1, 2025.

Article V: All other laws that are in conflict shall hereby be declared null and void.

Respectfully submitted,
